

REMARKS

Reconsideration and allowance of the present application in view of the above amendment and the following remarks is respectfully requested.

The status of the claims is indicated in the listing of claims above.

Claim 10 has been amended and claim 11 has been added. New claim 11 is identical to claim 10 except for the preamble.

Applicant gratefully acknowledges the allowance of claims 1-2 and 4-9.

In response to the rejection of claim 10, under 35 U.S.C. 101, allegedly because the claimed invention is directed toward non-statutory subject matter, specifically a signal per se, applicant traverses the rejection. The record carrier of the invention is not merely information signals that are purely nonfunctional descriptive material. The record carrier of the invention has physical formatting with functional advantages that physically distinguish the claimed invention from the prior art.

The claims are definite and distinguished from the citations and Applicant respectfully requests the allowance of all claims.

The Commissioner is hereby authorized to credit any overpayment or charge any fee (except the issue fee) including fees for any required extension of time, to Account No. 14-1270.

Respectfully submitted,
